Newsletter June 2017

Dear interested, volunteer, contributor, fellow-thinker, ELC- and Bail-freeholders,

The B of Joy under construction is the forerunner of the co-operative fairtrade pro-life bank. A bank of, for and by the people and thus also *your* bank. In gratitude we're looking back on a special period in which a lot of change has taken place. Every month, these are present online, to read on the page [News](#). We now also gladly share all new developments with you through this newsletter. This will become more frequent.

The revelations of Ronald Bernard, interview part 1

We as volunteers have all worked to the maximum in order to respond to the incoming e-mails as best as we can. The interview with Ronald Bernard of March 2017, in the meantime, is viewed 22 million times, all views added up, through the following channel: <http://bit.ly/2qBqH3g>.

As founder of B of Joy, Ronald decided that the time was right to present his 1st life to the public, as ex-bankster / top-criminal. With this gesture more people are offered insight and consciousness about how the world really is designed. According to Ronald this is still necessary in order to arrive at real changes. At the same time it clarifies why Ronald started B of Joy in his 2nd life, as socially responsible entrepreneur. In the coming 4 months parts 2 to 7 of the interview will come out.

B of Joy lecture-registration is coming out on DVD

Shortly, a professional DVD with a complete B of Joy lecture-registration will come out. We will also post this lecture-registration online on our [De Blije B YouTube channel](#) and B of Joy page under 'Lectures'. See: <https://bofjoy.net/about-us/news.html#lectures> We will also offer the DVD for the cost-price and postal costs. The price needs yet to be determined.

How are the prognoses for a banking-licence for B of Joy?

The prognoses for obtaining an internet-banking-licence are good. This is, among other things, due to our international network on a high level and the thorough research of many years. And we haven't made ourselves dependent on the licence provider The Dutch Central Bank (De Nederlandsche Bank (DNB)). That's excellent after all, for this bank allows unfortunately very little REAL space for innovation.

Since 2011 we've begun the full package of homework, step by step, in order to provide proper detail to the question: "*what is necessary to start an internet-bank from without the society itself?*" Apart from a qualified team of people, knowledge of law and regulation, secured ICT and accommodation, banking software and all that remains, the member - consensus and acceptance is a very important priority and a minimum of 1,2 to 1,5 million euro demonstrable in cash a serious necessity.

Even though it is a matter of having a 'long breath', the last 2 points for us are now under discussion and THE important step in the process of the application for a licence. Indeed, as soon as there are [10.000 EMC-holders](#), the licence will be requested. So, dear reader, get on the move for real positive changes. After approval of the application, one is obliged to issue the licence, provided all conditions are met. After that, B of Joy is operational as an Internet bank worldwide.

Important! From August 2017 on, we can no longer guarantee whether Ronald Bernard will be lecturing in the Netherlands this year. And if yes, whether the lectures will still be given on a small scale. Ronald is happy about all the lectures he gave, but now, he also recognizes that he must make priority choices within his limited and given time. Someone else might step in his footsteps for the lectures. Feel free to sign up for this job by visiting our [Contact Us page](#).

The B of Joy faces

Who are all those people working so hard behind the scenes? In every newsletter we will present somebody to you. We kick off with Anneloes van Hamburg, one of the first points of contact for B of Joy. Anneloes is currently coordinating the secretariat and the chances are big that you will receive a reply to your email from her. Change begins with consciousness and that's something Anneloes knows very well as an energetic healer and author. Her book 'I Am', is about growing awareness with light codes taking you on an exploration trip in a language that your soul will understand. An inspirational and original idea as a gift within your organization? You can read more about her and her colleagues on the website via: <https://bofjoy.net/about-us/who-are-boj.html>

Active participation is and will always be required

United People requests the commitment of everyone who is feeling sympathy for the B of Joy initiative. This can be achieved, for example, by making your circle of acquaintances aware of the B of Joy website. Let them visit the page: Why? <https://bofjoy.net/why>. The change begins in the consciousness! Through the years, the B of Joy team has gradually created the real choice as a manifestation. B of Joy is THE key to real changes. With a new financial monetary banking system, you'll make the whole world a better place!

It's up to you now ...
