

The B of Joy newsletter December 2017

Dear interested reader, volunteer, donor, supporter, EMC- and Bail-free holder,

The year ahead will be an important time period in which we will share even more attractive developments and in which we will further professionalize B of Joy. With their own bank such as B of Joy, citizens now will have the power in their own hands again. We ourselves are the only real value and change. No one else!

Across the borders

B of Joy is active in several countries, where the initiative, under the name B of Joy, is supported by several thousands of people. We also receive a lot of e-mails from abroad with questions and reactions from people who want to know more about the initiative and how they can join us.

The many talented people who register are committed to making the initiative a success worldwide. In this context, we will map all international applications in 2018 and set up international teams for each area of expertise. As if a sturdy tree we are growing steadily!

Interview Part 4 with Ronald Bernard

As the founder of B of Joy, Ronald felt that the time was appropriate to make his first life publicly known as a former bankster or senior criminal. This enables more people to gain insight into and awareness of how the world really works. According to Ronald, that awareness is very important in order to achieve real change. It also makes clear why Ronald started out in his 'second B of Joy life' as a socially motivated entrepreneur. In this fourth part, Ronald offers further insights into his life experiences. [Refer to Part 4 of the interview](#).

Lectures Ronald Bernard

> Wednesday January 10th 2018. Lecture 'Boss in your own Bank, for more prosperity and well-being', organized by GVL Lectures, [Anna Paulowna](#). Info will follow: Info: [Click here!](#)

> Sunday January 14th 2018. TOP-Lecture 'Boss in your own Bank, for more prosperity and well-being', organized by Frans Heslinga in the EXPO [Houten](#). Info: Info: [Click here!](#)

> Friday February 2nd 2018 at 19:30 hours. TOP-Lecture 'Boss in your own Bank, for more prosperity and well-being', organized by G. Boijmans, IBBO, [Geleen](#). Info: [Click here!](#)

If you would like to organize a lecture yourself, please contact us at:

<https://www.unitedpeople-foundation.org/contact-en>

Important!

Ronald speaks joyfully about all presented lectures, but also expresses the wish that others will take over part of it. Are you well proficient in matters of finances and banking? Can you dream of our most frequently asked substantive questions (FAQ on the website)? Are providing information and giving lectures part of your nature? And are you interested in helping to give lectures in the Netherlands? We would like to hear from you via:

<https://www.unitedpeople-foundation.org/contact-en>

Blockchain and Payment Application

We have started developing the B of Joy payment application, an App based on the 3rd generation Blockchain technology. We link this technology to [the URA](#) currency. The App features the latest technologies and specifications.

This approach was chosen to speed up the inflow of EMC-holders, supporters and donors through this project with payment options. It is the basis of any form of banking where you can receive and pay money to third parties. However, this development will require extra money. In 2018, we want to collect this money through a form of Crowdfunding which we already know by selling EMC's.

As soon as this payment application is operational, we are one step closer to the moment we can deliver the desired banking services. In doing so, B of Joy will be offering the perspective of a healthy economy and a just society. In short, real changes, prosperity and well-being for every participant!

B of Joy faces

Who are the people who work so hard behind the curtains of the B of Joy? In each newsletter we will present someone to you. This time we would like to introduce you to Jasper van Heck, coordinator Marketing & Communication.

“For a long time I had the feeling that I wanted to do something positive for the world. But then what? And how? As an individual, it is not easy to make a difference. When I got acquainted to Ronald Bernard and his magnificent, sustainable initiatives, I immediately registered as a volunteer.

It is great to be able to work together in a team of such motivated volunteers. It is giving me a lot of energy. The awareness that only we all together can make the world a more pleasant place to live together is growing rapidly and more and more people are joining us. Connection is, of course, the most important factor in making our joint mission succeed.”

On the website you can read more about colleagues via:

<https://bofjoy.net/about-us/who-are-boj.html>

Do you want to join our team? We have the following vacancies:

Editor of the Websites: ensuring that content is published on the websites, and that relevant articles are written/revised.

Copywriter: collect relevant information on the basis of which texts are published on the websites.

Social Media editor: posting of relevant topics on the various social media channels.

[Sign up as a volunteer](#)

Donate a member certificate as a Christmas present!

Are you looking for a sustainable and special Christmas present? A gift that makes the world a little bit more attractive and makes someone part of the healthy financial system of the future? Then offer them a member certificate as a present. Responding to numerous requests, it is now also possible to give your (grand)son or (grand)daughter an eternal member certificate (EMC). The certificate will immediately bear his or her name and has the same value. Link to: [Additional explanation](#) and [Acquiring EMC](#).

Christmas wishes

We ask for the commitment of everyone who has a sense of belonging to the B of Joy B Initiative. This can be done for example by making your environment aware of B of Joy. Have people visit the page [Why](#) and on YouTube <https://youtu.be/3C-KHt9vi5k>. The change starts in our consciousness! In the next few years, if we want to live in a healthy environment, this will be a dire need.

A letter from Ronald Bernard

What else can we add to such an informative newsletter with an invitation to each individual?

I shall simply confine myself to the following. People regularly ask about the state of affairs. How many people are already participating? How far have you got with your banking licence application? When will the permit be available? It is then pointed out that everything we want to share is indeed available on the websites at [News](#) and in this case [FAQ 1.0](#).

In 2016, we expressed the hope and the expectation that we would be able to apply for a permit the next year in the event of a sufficient influx of people. The same hope and expectation is now emerging in 2018. However, more people have to participate. Today's rulers set up their banking system in 1694 to create a totalitarian slavery system of debt. We do not intend to wait that long.

B of Joy has created a CUSTOMER OPPORTUNITY for the people to liberate themselves from the present slavery system that only - if you think about it - causes misery and shortages. How much pain should there be before people start to move en masse? I was told today that people have to pay back € 1500 per year for their pension. And there will be even more misery until:

Mankind will really stand up and be connected [in ourselves](#) and outside ourselves. Our teams can only make this easier by offering the right tools for true liberation and change. This is the helping hand we reach out by means of the B of Joy payment application. But dear people, stand up en masse now! Our team members, all participants and myself are doing it right, don't we? What is stopping you?

Why do you think that the change will initially take place outside of yourself and that others will arrange it for you? It is not: "you ask and we run". We people will have to do it all together now. My good intentions for 2018 are in line with this. Through lectures and international interviews, I will continue to raise people's awareness and call on them to participate. The Year 2018 will witness it, we are indeed coming!

We wish you on behalf of our whole team very nice, loving Holidays. Enjoy each other!
